3. **Guest Speaker** David McCallion introduced himself as the Community Capacity Builder. He said he had been in post since 1<sup>st</sup> April, 2015. His task was to assist any family or individual who needed support to take control of their lives. The referrals can come from anywhere including the Police, Ambulance Service, Citizens' Advice Bureau etc. It was his task to deal with people holistically. He has already talked to community groups. His role covers any age and some may already be supported in which case he would have a role to co-ordinate tasks. Members were asked to think of anyone who may need support or guidance. This could be someone who is anxious about life; is lonely; isolated or could be grieving about the loss of a family member. His task was on occasions analogous to that of a triage nurse in the Health Service who refers on to a third person. An Engagement Worker is likely to be appointed who will help the person referred to develop skills to help themselves. Housing, money, parenting, confidence, looking for work or merely wanting to improve an area of their life can be others who are referred. David can be contacted on 0161 770 6672. He says support can last for up to a year. David was thanked for his input.
